

**4th Edition of International Workshop on Thermoplastic Matrix Composites
THEPLAC 2009**

included in the

**INTERNATIONAL CONFERENCE ON COMPOSITE MATERIALS
27-31 July 2009 - Edinburgh, UK**

The objective of THEPLAC2009 is to provide a forum for the presentation of the latest research and technology developments in the field of thermoplastic matrix composites, promoting the discussion among researcher coming from academic and industry.

Prospective authors are invited to submit abstracts on the following non-exclusive list of symposium topics:

- Materials and Manufacturing
- Properties and testing
- Design and applications

The web site of the ICCM-17 (www.iccm17.org) provides all information currently available and will be periodically updated.

For additional information or questions, please send an email to the organisers of the symposium:
